

Stickinsects

# Species that I keep

## Indian Stick insect

From Indian

- They grow to about 4-5 inches.
- There is almost no males in this species.

## Giant Borneo Stick insect

From Borneo

- They grow to about 8 inches but are much thicker and bulkier than Indian stick insects.
- They also are almost entirely female as well.

# Indian Stick Insects

They can be kept at room temperature in the UK unless it gets very cold in the winter.

They are best kept at 18°C to 26 °C

Bramble, Ivy, Hazel Tree, Apple, Rose, Curly Kale, Raspberry, Hawthorn, Privet, Blackberry, and Pyracantha
